

2017 Trailer Race Class Rules

For Rules Call 319-310-2762

1. Heavy Hitter Class all vehicles must have a roll over bar: you are allowed in this class to have bars that run over the cab to front and rear bumper

Driver Only- No Passengers

- Window nets are highly recommended
- Only 6 Cylinder or 8 Cylinder, cars, vans, trucks, blazers, suburban's, etc. No dual wheeled vehicles allowed.
- All glass must be removed except windshield (optional)
- Stock gas tank is OK or may be replaced by a maximum 6 gal boat tank.
- Doors must be chained and or welded shut. You may use flat steel or maximum 2" round or square tubing.
- All batteries must be strapped or bolted in place, also must be cover if inside vehicle.
- No snow ploys allowed
- Front bumper must not extend past the side of the vehicle 6 inches and no excess bull work.
- Chain Size 3/8 Max and no cable.
- No I-beams for front bumper over 7 in and must have rounded corners.
- No excess plating of frame, no excess bull work, must remain stock.
- No empty trailer. Call if need ideas
- No tires to fill trailers, they will be taken off and you taking home.
- No manure spreaders, farm equipment, heavy duty or home made units.
- All trailers must be approved by speedway.
- Ball and chains only, No direct bolt hook ups. No pin hooks on trailer to tow vehicle. Ball couple can't be welded. All trailers will be required to be un-hooked from vehicle.
- No heavy steel home made trailers or purchased steel trailers.
- Tongues and trailers cannot be made to spin around
- Length of trailer tongue must be at least 6 ft long from ball to front axle.
- Minimum of 4 ft wide

- Boats must have motors removed and interior seats and benches removed.
- If a camping trailer is used must be single axle and not over 18 feet long , all glass, seats, beds, foam, propane tanks, fuel tanks, storage tanks, etc must be removed prior to arrival.
- No garbage cans or refuse will be allowed in race vehicle of trailer.
- Trailer unit must have at least 1 complete axle set with wheels on the ground to remain in the race. If trailer tongue comes un-hooked from ball during the event you are out of the race.
- Safety chains are just to keep trailer from becoming a projectile. If your trailer is dragging from the chains only and not connected to the ball, you will be removed from the event. Dragging a broken tongue or wishbone does not count and you will be removed.
- Objects on trailer must be approved by officials.
- All vehicles must be approved.
- All drivers will have helmets and safety equipment.

• Stock class

- No over the top bars to front and rear bumpers
- Roll cage encouraged
- Trailers rules are the same for this class.
- No full size pickups, blazers.
- No full size welded demo cars.
- Will only allow cars, small pickups that would have been driven on the street.
- Pickups, blazers will be medium size only, if four wheel drive one drive shaft has to be removed.
- No welding of body seams, except driver door for safety strength.

- All vehicles will run street legal tires, No skid tire retreads, etc. No over size tires that did not come on that vehicle.
- No lift kits, vehicle must remain stock height.
- No mix or match of bodies to frames.
- Must be stock frame
- No I-beams for front bumper.
- No exotic front bumpers, just make a push bumper
-

Race Procedures;

No hitting in drivers door

May only go around the track counter clock wise.

This is not a race

Knock your competitor's trailer off his or her vehicle.
